The roots of Judaism reach back to the Hebrew Bible, also known as the Old Testament by Christians. For thousands of years, Jews have looked to these scriptures for their origins, and have located in them the tenets of their faith. However, much of what is recognized today as Judaism does not appear in the Bible. How did Judaism develop from its biblical roots to the highly developed system we ...

Telecommunication is the transmission of signs, signals, messages, words, writings, images and sounds or information of any nature by wire, radio, optical or electromagnetic systems. Telecommunication occurs when the exchange of information between communication participants includes the use of technology. It is transmitted either electrically over physical media, such as cables, or via ...

What is the greatest threat to humanity? We are, of course...and our technology. Like a dangerous weapon in the hands of a child, technology has overtaken our capacity to control potential consequences. Oxford University's Future of Humanity Institute, led by director Nick Bostrom, says we have entered this new kind of technological era that we have no track record of surviving.

»¿IMT Ghaziabad INNOVATION Based on Research Papers 12/21/2011 Executive Summary Innovation is the core business competency of the 21st century. In order to not only compete and grow but to survive in a global economy, businesses must innovate. To date innovation has been approached in a piecemeal fashion often linked solely to the New Product Development (NPD) process.

The Australian National University has a rich and diverse history. Across our campuses, ANU manages places with Indigenous, historic and natural heritage value. These heritage values are embodied in the landscape, the buildings and the complex histories of the sites, the people who lived and worked at there, the events that occurred, and the discoveries that were made.
