confronting blood Diamonds in Sierra Leone. Antwerp (Belgium), Liberian diamond exports between 1990 and 1999 were . equal to around five million carats per annum; however, from 1991 onward, diamond exports from Liberia shot up to 200,000 carats per annum. Such high figures were surprising for a country that is relatively poor in diamond resources.

Confronting Blood Diamonds in Sierra Leone - Yale Journal

Conflict Mapping aims to reconstruct the chain of events during a conflict through gathering information in the field. It also allows for the analysis of decision-making processes to ascertain the role of those who bear the greatest responsibility for the conduct of armed forces and groups in conflict, and in particular for policies of systematic and massive violations of the laws of war.
