Environmental design and ergonomics in the design of built environments (ergonomics)

Environmental Design resources. Ergonomics & design of

Urban design is about making connections between people and places, movement and urban form, nature and the built fabric. Urban design draws together the many strands of place-making, environmental stewardship, social equity and economic viability into the creation of places with distinct beauty and identity.

People-first language (PFL), also called person-first language (PFL), is a type of linguistic prescription to avoid marginalization or dehumanization (either conscious or subconscious) when discussing people with a health issue or disability. It can be a type of disability etiquette but more often is applied to any group that would otherwise be defined or mentally categorized by a condition or ...
